

# SLICE-RS

## ROLL SLITTER

### RULO KESİM MAKİNESİ

SLICE-RS is an advanced roll slitter which is used for cutting the roll of textile to the desired width of roll. With its tempered blade it is able to cut even the hardest materials such as elastic non woven, knitted fabric, 3D spacer, leather, etc. Unlike the machines in the market, SLICE-RS has advance mechanisms in order to obtain precise slitting of the rolls without wasting your materials by unsuccessful cutting attempts. The strong tempered blade not only offers precise cutting, but also much longer durability. Automatic double side sharpening system, blade cooling and roller stabilizer presser support excellent cutting quality while ergonomic blade safety cover, motorized right-left motion of the blade and unlimited maximum cut width provides the highest efficiency and ergonomics.

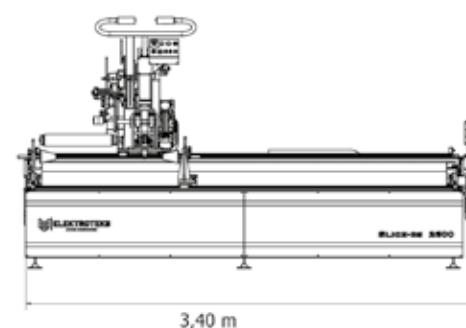

01  
Heavy Duty HSS Blade with Automatic liquid cooling system

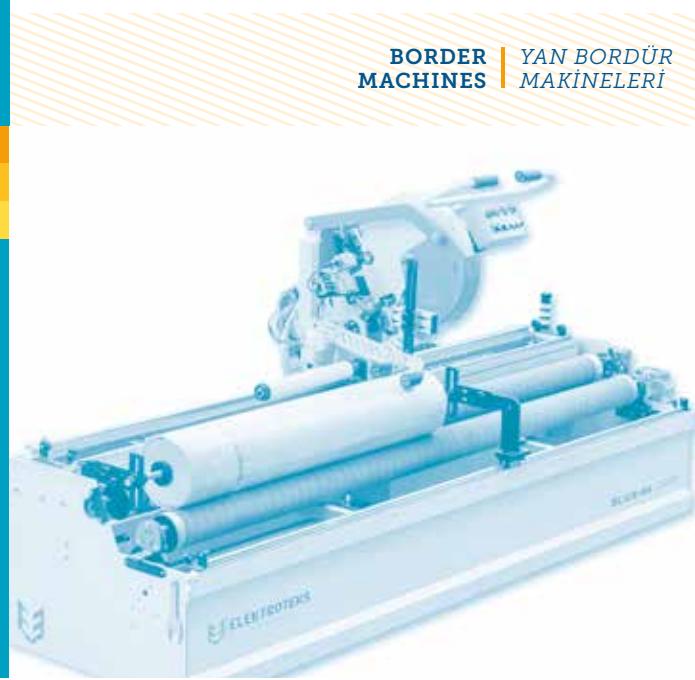

02  
Motorized right and left motion of the blade

03  
Adjustable roller gap  
Kolay ayarlanabilir iki rulo arası mesafe

### TECHNICAL DETAILS / TEKNİK DETAYLAR

SLICE-RS

<b>Max. Fabric Diameter / Maks. Kumaş Çapı</b>	40 cm
<b>Max. Fabric Width / Maks. Kumaş Eni</b>	<b>260 cm / (Optional 320 cm)</b> (Opsiyonel 320 cm)
<b>Cutting Width / Kesme Genişliği</b>	4 – 250 cm
<b>Blade Diameter / Bıçak Çapı</b>	50 cm (HSS Blade)
<b>Weight / Ağırlık</b>	900 kg
<b>Power Requirement / Güç</b>	2.5 kW
<b>CE Certificate / CE Sertifikası</b>	<b>Yes / Mevcut</b>

**Smooth nonwoven,  
knitted fabric, jacquard  
fabric, leather, 3d  
cutting thanks to robust  
structure and the blade**

Güçlü yapı ve bıçağıyla sorunsuz  
tela, örgü kumaş, jakarlı kumaş,  
deri, spacer kesimi

**Roller stabilizing presser  
for accurate cutting**

Düzgün kesim için kumas  
sabitleyici rulo baskısı
